

DHANUSH N

Product Designer | UI/UX Designer

Bengaluru, India | +91-9986072700 | dhanush.n698@gmail.com

Portfolio: dhanush-portfolio-tau.vercel.app | LinkedIn: <https://www.linkedin.com/in/dhanush-n-1290a61a6>

PROFESSIONAL SUMMARY

Product Designer with 4+ years of experience designing web applications, SaaS dashboards, and D2C products end-to-end — from UX research and user flows to high-fidelity UI, design systems, and developer handoff. Independently redesigned a flagship immigration platform (200+ pages) driving ~30% organic traffic growth. Skilled in Figma, design systems, usability testing, and cross-functional collaboration across immigration, real estate, e-commerce, healthcare, and operations.

CORE SKILLS

UX & Product Design: User Research, Usability Testing, User Flows, Information Architecture, Wireframing, Prototyping, Interaction Design, Responsive & Mobile Design, Design Thinking, Conversion Optimization

UI & Design Systems: Visual Design, Design Systems, Component Libraries, Design Tokens, Variables, Theming, Style Guides, Accessibility (WCAG), Developer Handoff, Design QA

Tools: Figma (components, variants, tokens, prototyping), FigJam, Adobe XD, Photoshop, Illustrator, Google Analytics 4 (GA4), Lighthouse

Collaboration: Stakeholder Management, Cross-functional Collaboration, Agile, Scrum, Design Reviews, Product Discovery

Technical & AI: HTML, CSS, React, Tailwind CSS, AI-augmented design workflow — Figma AI for rapid drafting and iteration, Claude and ChatGPT for research synthesis, competitor analysis, and UX writing.

PROFESSIONAL EXPERIENCE

Product Designer (UX/UI) — XIPHIAS Immigration Private Limited Aug 2022 – Jul 2026

Bengaluru, India

- Independently redesigned and rebuilt the flagship immigration platform in 3 months — 50+ country pages and 150+ programme views — contributing to ~30% growth in organic traffic post-launch.
- Improved UX across 8+ web applications and dashboards by auditing existing flows, identifying usability issues, and owning designs from discovery through developer handoff.
- Designed the end-to-end UX for an internal AI assistant — chatbot conversation flows, AI output and results screens, search/Q&A, content generation, and an insights dashboard — shipped to internal users.
- Built and maintained design systems across multiple products using reusable components, design tokens, variables, Auto Layout, and theming — improving UI consistency and accessibility, and increased form completion via embedded forms, progressive disclosure, and contextual error states.
- Conducted user research, usability testing, and feedback analysis to validate needs and prioritize improvements, and partnered with developers on design QA for pixel-accurate, responsive delivery.
- Used GA4 and Lighthouse to surface UX, accessibility, and performance improvements across products.

KEY CLIENT PROJECTS

Resort Booking & Property Management — Product Designer

- Owned end-to-end UX for a 63-page, 46-data-model product solo — from information architecture and user flows to high-fidelity UI and developer handoff.

Harmony Luxe Spa — Admin Dashboard — Product Designer

- Designed a SaaS billing and operations dashboard — menu pricing, GST invoices, customer index, expense tracking, analytics, and print/PDF workflows, with KPI dashboards, data tables, and filters for business users.

ASTA Healthtech — Product Designer

- Designed the product website for a clinical AI patient-monitoring platform, translating a complex AI workflow into clear messaging and user journeys for hospital buyers.

TUR Middle East FZC — Product Designer

- Designed a full responsive dual-theme B2B platform website — 6 product verticals, 7 regional offices, and multi-catalogue pages — with consistent branding for a GCC and South Asia audience.

EDUCATION & LANGUAGES

B.Sc. in Graphics and VFX — Arena Animation, Bengaluru 2021

Languages: English, Kannada, Telugu, Hindi
